

Create an IntSlider that slides from 100 to 450 with a step size of 10. Give the slider a customized description.

In []:

Create DropDown menu with your top five favorite movies, tv shows, or books as the options. The starting value should be your all-time favorite. Give the menu an informative description.

In []:

```
In [ ]: # CREATE A WIDGET HERE
```

The following cell defines a function that will generate a histogram for a quantitative variable in the `bikes` Table. Create a DropDown menu, a set of ToggleButtons, OR a set of RadioButtons with the names of three categorical variables. Then, use `interact` and the `bike_hist` function to create a widget for generating different histograms.

```
In [ ]: def bike_hist(feature):  
        "Create a histogram for FEATURE"  
        return bikes.hist(feature)  
  
        #YOUR CODE HERE
```
